

John Doe
Software Engineer

Skills

Python
JavaScript
TypeScript
Java
PHP
MySQL
Node.js

Experience

Software Engineer at ABC Tech

Developed backend services using Python and integrated them with MySQL databases to improve application performance.

Built REST APIs with Node.js and collaborated with the frontend team to deliver reliable features.

Created interactive web components using JavaScript and helped fix bugs, improve usability, and support new product releases.

Education

Bachelor of Science in Computer Science
State University
