SUMMARY:

Software Engineer with 1 year of production experience as a Backend Developer and System Administrator. Recently focused on modern full-stack development using React, Node.js, Express, PostgreSQL, and TypeScript. Built and converted multiple full-stack applications with clean architecture, authentication, and REST APIs. Fast learner, Problem solver, passionate about delivering scalable and user-friendly solutions.

EDUCATION:

B.S. in Informatics Engineering, Software Engineering Department.

08/2018 – 08/2023 | [REDACTED]
Graduated: Aug 2023. GPA: %81.1

SKILLS:

Languages

TypeScript, JavaScript, C++, Java, PHP

Backend

Node.js, Express, Laravel (PHP), RESTful APIs, JWT, PostgreSQL, MySQL, Prisma

Frontend

React.js, State Management, Responsive Design, Accessibility, Component Testing.

Other

Linux Shell, Git/GitHub, OOP

Soft Skills

Analytical Thinking, Adaptability, Team Collaboration, Leadership, Mentorship

PROFESSIONAL DEVELOPMENT:

Intensive Full-Stack Training (PERN Stack) – [The Odin Project](#)

12/2024 – Present

- Mastered modern full-stack web development with React, Node.js, Express, and PostgreSQL
- Implemented authentication, data validation, error handling, responsive, accessible UI and asynchronous JavaScript on both backend and frontend.

EXPERIENCE:

Backend Developer & System Administrator at

[REDACTED]

10/2023 – 12/2024 | [REDACTED]

- Built, maintained production web applications using Laravel, ensuring seamless frontend-to-backend integration via RESTful APIs.
- Performed system deployments, managed backups, and ensured 24/7 stability
- Demonstrated active problem-solving by troubleshooting complex production issues in real-time and collaborated with developers to ship features fast
- Spearheaded the onboarding process for new team members and provided ongoing technical guidance.

PROJECTS:

Blog Platform - API + Reader Site + Admin Dashboard (PERN Stack – TypeScript):

- Built complete decoupled RESTful API using Express + Prisma + JWT + role-based authorization
- Developing two frontends (public reader site and private admin dashboard)
[Live preview](#) | [Back-end](#) | [Front-end](#)

Shopping Cart - React:

- Responsive e-commerce interface with React Router, advanced state management, and REST API integration
- Implemented reusable components and
- Comprehensive testing with React Testing Library

[Live preview](#) | [View code](#)

ACTIVITIES:

- Participated twice in [REDACTED] University Collegiate Programming Contest.
- Solved ~500 problems on Codeforces
- (demonstrates extremely fast learning and algorithmic thinking). [\[codeforces\]](#)
- Attended university programming training camp focused on advanced techniques.
